

12 AREAS OF INNER BALANCE AND HARMONY

How do you balance your all areas of life? Over the past years working with my clients, I realised that they do not have space to imagine their future, and they lack of tools to explore the potential of their best possible future. I have created tools to help them grow and succeed based on 12 areas of inner balance. One of them is an **Inventory Balance**.

Too many of us give up our dreams when life's problems arise. We postpone our plans for later, temper our own ambitions and aspirations, and forget that our future depends on us. We even lose faith in ourselves and hope. Do we really want this? Think what you would like to change and think about which of the 12 areas of inner balance you are ready to work on this year.

Please, take your precious time for reflection and for each category in the twelve areas of your Inner Balance, rate your life on a scale of 1 to 10, with 1 being low and 10 being high. This isn't a test! You don't need to share these scores with anyone, but it's really good if you reflect on it for a while. Everyone has own definition of success, and these can vary considerably.

Inner Balance Questions

Question 1: Honing Your Life Vision

Take a moment to think: how strongly do you feel about pursuing your dreams and goals this year? How vivid is your vision of life?

If you feel that it overwhelms you, stresses you or you don't know how to deal with it, I am happy to help you. This is the best time to start, make the right decisions, face the challenges boldly and take full risks to live better! In my new book: *The Art of Changing Mindset. Achieve inner balance and excel in business and life*, I give you tools and methods and encourage you to go through each of the 12 categories and reflect on your answers to some very important questions. In each chapter you will explore how you can develop in specific areas and which steps, tools and methods you can use. You will then have the chance to decide which you want to select and focus on to find more harmony and balance in your life. You will be encouraged to do some exercises, answer a lot of questions and take actions to apply what you have learned in order to build supportive habits to create the life you want to live.
